
Marco Egidi

Software Developer | Full Stack, AI and Cloud

Veneto, Italy | marco.egidi.me@gmail.com
github.com/markegidiDev | linkedin.com/in/marcoegidi

PROFILE

Computer Science graduate from the University of Padua with hands-on experience in full-stack development, relational databases, and AI integrations. Builds applications with Python, JavaScript/TypeScript, React, FastAPI, and SQL using Docker and cloud services. Planned postgraduate study in Cybersecurity with intended enrollment in October 2026.

EDUCATION

Bachelor's Degree in Computer Science | University of Padua

Padua, Italy | Graduated: April 2026

Planned postgraduate study: MSc in Cybersecurity

Intended enrollment: October 2026

PROFESSIONAL EXPERIENCE

Software Developer Intern | Sync Lab S.r.l.

Padua, Italy (hybrid) | October 2025 - December 2025 | [GitHub](#)

- Designed and developed AI LiveBot, an Odoo 18 module that extends native chat with an AI assistant for managing warehouse availability, sales orders, and deliveries through natural language.
- Integrated Gemini and OpenRouter with function calling and tool execution, fuzzy product search, term normalization, real-time stock checks, and user confirmation before order creation.

Stack: Python, Odoo 18, Odoo ORM, JavaScript, Gemini API, OpenRouter, Web Speech API.

IT Systems and Support Intern | Stardate Sas

Montebelluna, Italy | January 2019 - February 2019

- Performed hardware/software diagnostics, Windows configuration, PC maintenance, and local and remote technical support.

IT Systems Intern | Treenet SRL

Montebelluna, Italy | January 2018 - February 2018

- Assembled and configured PCs, provided hardware support, and delivered basic cybersecurity awareness training to users.

PROJECTS

Spinout Engine | Co-developer | HackRome

Rome, Italy | June 13, 2026 | spinout-engine.vercel.app | [Devpost](#) | [GitHub](#)

- Co-developed, in a two-person team during a one-day hackathon, an AI web application that transforms PDF, DOCX, TXT, and Markdown research documents into structured venture memos and supports investor-style Q&A with generated voice responses.
- Built a multi-agent pipeline for document intake, technical novelty, market, competitor and risk analysis, final synthesis, and Markdown/JSON export.

Project stack: Python, FastAPI, Pydantic, JavaScript, Firebase Auth, Docker, Scaleway, OpenAI/Gemini APIs, ElevenLabs.

Pulse Buddy - Chrome Extension | Creator

Personal project | [GitHub](#)

- Built a Chrome MV3 extension that injects real-time financial data and custom badges into crypto platform interfaces using WebSockets, an optimized MutationObserver, and privacy-focused local storage.

Stack: JavaScript ES6+, Chrome MV3, WebSocket, DOM API.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, C/C++, Java, HTML, CSS

Frameworks and data: React, FastAPI, Flask, Odoo 18, LangChain, Pydantic, PostgreSQL, Firebase/Firestore

Cloud and tools: AWS, Google Cloud, Scaleway, Docker, Git/GitHub, REST APIs, WebSocket, CI/CD
